

The excitement of seeing your idea come to fruition through **visual arts**

Or the soaring voices of our choral **singers**

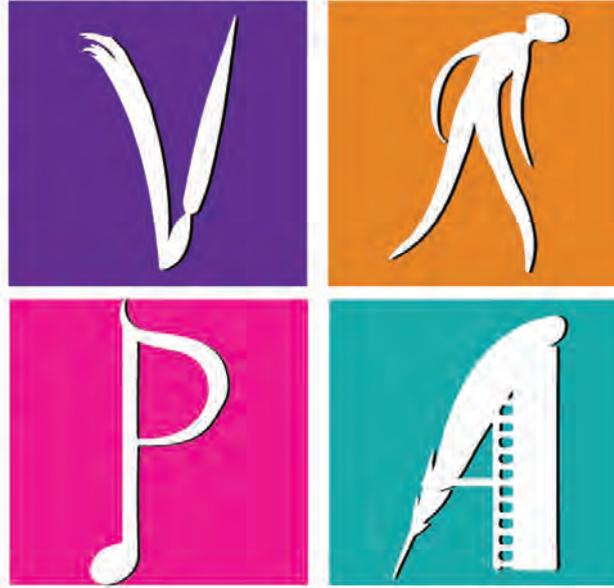

We have it **ALL** at the **VAPA Magnet**!

Plus **dance, photography, and creative writing!**

You will find that the **VAPA Magnet** at HCA has **everything** students need to be successful in college and creative careers readiness!

VISUAL AND PERFORMING ARTS MAGNET
HALE

Our **MISSION** at the **Visual and Performing Arts (VAPA) Magnet** at **Hale Charter Academy (HCA)** is to provide San Fernando Valley families with an innovative college-preparatory fine and performing arts middle school that engages in an interdisciplinary curriculum to develop all students' intellectual skills and creative talents in order to attain measurable artistic and academic excellence.

In the culture of a collaborative learning community, the **VAPA Magnet** implements a college-preparatory curriculum and creative arts career exploration with quality **fine** and **performing arts studio programs** that support and challenge our students to advance in skill and stretch both academically and artistically.

We know we can teach our students the creative aesthetics, academics, technology, innovation and entrepreneurial skills required for success with college and career readiness, especially in the **visual and performing arts**.

To achieve our mission, students will keep **Portfolios** on Google Sites for each year they are in the **VAPA Magnet**, which will highlight the collaborative nature of the **Magnet** and the **interdisciplinary means** by which we weave academics into the arts. As eighth grade students, they will create a **Capstone Project** that will bring all the knowledge and creativity they have acquired into one culminating event.

The **VAPA Magnet Career Speaker Series** brings experts from the entertainment and arts industries to share their insights with our students. This day-long event is one of the highlights of the year for our Magnet.

The shared vision of the **VAPA Magnet** is that with a team of inspired educators, in a well-equipped facility, and implementing an **integration** of core academics with the arts, we provide students a results oriented program that expands their **intellectual and artistic talents**

An example from the 2020 Capstone Project submission for the Culminating Anne Frank Project. Using art to tell the story.

Whether it is the energy of **dance**

Or the resonance of our award-winning **instrumental music** program

The thrill of treading the boards and performing live in our **theatre**
